*As members of the Hinton Community Greenhouse & Gardens, we want to learn from each other! Keeping a Logbook of what you plant, when you planted, and other relevant information will allow you, and other gardeners, to enjoy an optimal gardening experience in future years. (And it's also a requirement of using the Community Greenhouse!)

~ Please feel free to suggest any improvements to the Logbook by emailing hintoncommunitygarden@gmail.com

~ Information collected will be shared with all members at the end of the season!

Thanks again, and happy gardening!
